Section 2. Adjustments.

A. On July 1, 2007, and on July 1 of each year thereafter in which the increased municipal facilities and equipment development fee is in effect, the amount of the municipal facilities and equipment development fee, per dwelling unit and per 1,000 square feet for non-residential development, shall be automatically adjusted in compliance with applicable State law to account for inflationary increases in the cost of providing municipal facilities and equipment utilizing the most recent applicable data and construction cost index from the Engineering News Record for the Phoenix metropolitan area, utilizing data from Consultant, and/or utilizing date based upon Town experience and records.

B. In lieu of the automatic annual adjustment provided for in Section 2(A) hereof, Town may, at its option, determine the appropriate annual inflation factor for municipal facilities and equipment pursuant to the Annual Review process set forth in Article 6 of this Chapter and amend the municipal facilities and equipment development fee in compliance with State law.

C. Provided, however, that nothing herein shall prevent the Town from electing to retain the existing municipal facilities and equipment development fee or from electing to waive the inflation adjustment for any given fiscal year or years.

Section 3. Separability.

If any section, subsection, sentence, clause phrase or portion of this Ordinance is, for any reason, held to be invalid or unconstitutional by the decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portions thereof.
